#### Agenda item #2

### **Status of Housing Debt**

The 2021C bond issuance was finalized on August 17, 2021. Total bond proceeds less closing costs were deposited into a separate account specifically for bond proceeds with PFM Asset Management, UW's Investment Advisor. This account is being managed according to the specifications outlined in the bond resolution.

Per section 1.12 of the bond resolution dated June 1, 2021, pursuant to the resolution adopted and approved on November 14, 2019, UW can reimburse itself for capital expenditures relative to phases 1 and 2 of the student housing project with bond proceeds within 18 months of the date of the expenditure of moneys on capital expenditure or on the date upon which the project containing the capital expenditure is placed into service, whichever is later (but in no event more than 3 years after the date of the original expenditure of such moneys).

As of 3/4/2024, \$131,036,321 of the bond proceeds for new housing, parking, and dining facilities have been expended and reimbursed to UW. \$15,963,504 of this amount corresponds to capital expenditures made before the issuance of debt for the projects on August 17, 2021.

\*Note that payments to the retainage account are not expended until released by UW to the contractor. Funds in the retainage account including interest earned are considered bond proceeds and subject to all bond compliance requirements.

\*\* Retainage paid plus interest was returned to UW in February 2024 upon execution of the Termination and Return of Deposited Retention to the University agreement.

# Status of Satisfaction of Bond Debt Requirements

#### Timing of use of funds

Per the bond tax compliance certificate, 85% of the proceeds, \$213,172,364.06 of the total \$250,791,016.55 are to be expended within three years of the date of issuance of the bonds. Three years expires 8/16/2024.

If 85% of the proceeds are not expended by 8/16/2024 UW would need to demonstrate continued, planned expenditure of the bond proceeds within a reasonable amount of time. The reasonable amount of time is based on the facts and circumstances of the case and how far from having 85% of the proceeds expended. UW would work with bond counsel to certify the plan for diligently proceeding with the project. The certification document is required to be kept on record at UW.

There are no other filing requirements. Additionally, the yield on the unspent bond proceeds would need to be restricted to no more than the yield on the bonds at this point.

Worst case scenario, if for some reason the project did not move forward, UW would be required to place funds in escrow equaling all unspent bond proceeds plus additional funds to pay the semiannual interest payments and yield the payout at the call date of the bonds. The call date of the bonds is June 1, 2031. The yield of the escrow account can be no more than the yield on the bonds. Another option in this case would be to work to find other legal alternatives for the use of the funds.

🗆 No

#### FOR FULL BOARD CONSIDERATION:

☑ Yes [Note: If yes, materials will also be included in the full UW Board of Trustee report.]
 □ No

Attachments/materials are provided in advance of the meeting.

#### EXECUTIVE SUMMARY:

Vice President Kean, Provost Carman, and the Central Fee Book Committee chairs will introduce the proposed FY2025 Business Fee Book changes for board consideration.

Per UW Regulation 7-11 (Tuition, Fees, Scholarships, and Financial Aid), student tuition, fees, and charges ("Fees") and related policies and procedures shall be established by the Board of Trustees in the University Fee Book. The President, through the Office of Financial Affairs, shall maintain and publish the Fee Book.

The Central Fee Book Committee convened on December 11, 2023, and took business fee book requests from campus constituents through January 31, 2024. The Committee has collectively determined the proposed changes are reasonable and needed to support various operations around campus. These changes have been organized and included in the supplemental materials. For the Board's reference, the document includes the impact on revenue, where applicable. It also includes the page number from the FY24-approved Business Fee Book.

Provost Carman and Vice President Kean will make a recommendation to the Board for acceptance and approval of the reports.

PRIOR RELATED COMMITTEE DISCUSSIONS/ACTIONS: The Board accepts and approves the Business Fee Book each year.

#### WHY THIS ITEM IS BEFORE THE COMMITTEE:

The Board of Trustees is responsible for establishing all fees, charges, and deposits assessed and refunds afforded to individuals applying for admission to the university, enrolled students, university employees, and the general public. Such fees shall be reasonable and prudent for adequately protecting and controlling university funds, equipment, facilities, services, and materials.

# ACTION REQUIRED AT THIS COMMITTEE MEETING:

The Board approves the recommended FY2025 Business Fee Book presented to the Budget Committee.

## PROPOSED MOTION:

I move the Board approve the FY25 Business Fee Book as recommended by the Budget Committee *[Placeholder]*

7	NEW Research & Economic Development - Science Initiative	The Science Initiative Plant Growth and Phenotyping Facility service center charges fees for facility usage, services, and consumables in order to recuperate operating costs. The facility is located in the Science Initiative Building, contains very high control research greenhouse facilities, and is partially subsidized by Science Initiative designated operating funds. The facility usage fees are all calculated from a baseline internal user fee of \$1/sq ft. The Plant Growth and Phenotyping Facility is a new service center and no existing cost and revenue data is available so this rate was determined by market analysis. Competitor and peer facilities AES/REC, UC Davis, U. of Arizona, Berkeley, and CSU have fees ranging from \$0.44 to \$1.25 per sqft for very low to high control greenhouse facilities. The PGPF is a very high control facility. Service fees are calculated from the personnel costs (salary and fringe) of either the facility manager or hourly non-benefited workers depending on the type of service.		See attached rate sheet	Approx New Gross Revenue \$101,000
	NEW Research & Economic Development - Science Initiative	The Science Initiative Center for Advanced Scientific Instrumentation (CASI) located in the Science Initiative Building charges fees for instrument usages, services and consumables, in order to recuperate		See attached rate sheet	
		operating costs. CASI offers three primary products and services to cater to the diverse needs of our user community: Instrument Usage: Our facility provides access to a range of advanced instruments, including Micro-CT (Zeiss Xradia 610), transmission electron microscope (ThermoFisher Talos 200x), focus ion beam-scanning electron microscope (ThermoFisher Helios 5 UX), spinning disk confocal microscopes (Olympus super-resolution and TIRF), and laser confocal microscopes (Zeiss LSM 980). Users, both internal and external, can operate these instruments independently or with assistance from our team of experts. Hourly rates will be applied for instrument usage. Assisted Service: In cases where researchers require the expertise of CASI scientists for instrument operation, data collection, sample preparation, or data analysis, an additional assistant service fee will be applied. Hourly rates will be charged for assisted services. Training: CASI is committed to operate instruments independently. Training fees are applied on a per-session, per-person basis.			Approx. New Gross Revenue \$385,000

To:	Edward Seidel, President
From:	Michelle Hilaire, Acting Dean of the College of Health Sciences
Date:	March 20, 2024
Subject:	Mountain View Medical Plaza (MVMP) Space Utilization Study - Renovation

The College of Health Sciences requests authorization to use \$180,000 from the College of Health Sciences unrestricted operating reserves for MVMP Space Utilization Study – Renovation.

The project scope for this estimate includes:

- Moving the offices and exam rooms associated with the simulation center and speech and hearing clinic from the Health Sciences building to the MVMP.
- Cosmetic repairs to the vacated areas in Health Sciences.
- Plumbing modifications in rooms 168, 169, and 170 at the MVMP.
- Removal and construction of walls fit the users' needs at MVMP (rooms B101, B102, B104, 168, 169, and 170).
- Wall/floor/lighting modifications/repairs necessitated by the remodeling at MVMP.
- Any HV AC adjustments needed for the speech/hearing booth to meet noise requirements.

Re:	MVMP Space Utilization Study

Thank you for the opportunity to provide UW Operations services for your project. As requested, a budgetary estimate for the project "MVMP Space Utilization Study" has been prepared based on the scope as indicated below.

The project scope for this estimate includes:

- Moving the offices and exam rooms associated with the simulation center and speech and hearing clinic from the Health Sciences building to the MVMP.
- Cosmetic repairs to the vacated areas in Health Sciences.
- Plumbing modifications in rooms 168, 169, and 170 at the MVMP.
- Removal and construction of walls the fir the users' needs at MVMP (rooms B101, B102, B104, 168, 169, and 170).
- Wall/floor/lighting modifications/repairs necessitated by the remodeling at MVMP.
- Any HVAC adjustments needed for the speech/hearing booth to meet noise requirements.

This estimate *excludes*:

- Purchase or install costs associated with the new speech/hearing booth.
- Moving the old booth to the new location.
- Any specialized moving services required to transport sensitive instruments from Health Sciences to the MVMP.
- Replacing the lighting at the MVMP.
- Remodels in any rooms not listed above.

Attached is a Request for Estimate (RFE) form for this project. Please review the scope indicated above and the estimate amount on the attached RFE and complete Part III of the RFE to authorize the project. The form is to be signed by a person authorized to commit departmental funds. Design work on this project will be scheduled after receipt of the signed RFE.

The estimate provided is a budgetary estimate. The project will be bid to outside contractors at which time the estimate will be finalized. You will then be asked to authorize the construction. If you decide not to proceed with the construction, your department will be responsible for the design and project documentation costs incurred to date. Any changes to project scope as

Re:	University Reserves Request for North Willet Project & Senate Chambers Upgrades

Per the attached ASUW Senate Bill #2948, ASUW would like permission to allocate \$260,000 from the ASUW Reserves Fund to UW Operations to help fund the 'North Willet Sidewalk Lighting "project and the remaining reserves balance of \$58,762 to the Wyoming Union for the Senate Chambers AV Project. Funding the North Willet Sidewalk Lighting project will serve a large benefit to the UW students by providing a safer route for students. Funding the AV Project in the Union Senate Chambers will allow greater transparency of senate meetings and actions as the current technology in that room is very outdated, creating issues with streaming meetings on a weekly basis. It also creates issues with accessibility as people struggle to hear the meetings, as well as frequently there is an inability to show documents on the screen. Per the ASUW Audit conducted in the fall semester, ASUW was tasked with spending down the reserves by June 30th. Passage of these 2 projects would bring the reserves balance down to \$0 as instructed.

To: ASUW Director of Finance From: Anders Dahl Date: 12/11/2023 Re: North Willet Sidewalk Lighting

Thank you for the opportunity to provide UW Operations services for your project. As requested, a budgetary estimate for the project "North Willet Sidewalk Lighting" has been prepared based on the scope as indicated below.

The project scope for this estimate *includes*:

- Purchase and installaltion of lighting along the sidewalk on the north side of Willet from 15<sup>th</sup> to 19<sup>th</sup> streets.
- All required trenching, landscaping, and concrete work to provide electricity to the lights.

This estimate *excludes*:

• The addition or repair of lighting in any location not specified above.

• Any concrete or landscaping work not associated with the installation of the lighting. Attached is a Request for Estimate (RFE) form for this project. Please review the scope indicated above and the estimate amount on the attached RFE and complete Part III of the RFE to authorize the project. The form is to be signed by a person authorized to commit departmental funds. Design work on this project will be scheduled after receipt of the signed RFE. The estimate provided is a budgetary estimate. The project will be bid to outside contractors at which time the estimate will be finalized. You will then be asked to authorize the construction. If you decide not to proceed with the construction, your department will be responsible for the design and project documentation costs incurred to date. Any changes to project scope as stated above must be identified, estimated, and then approved by the person who signed the RFE. Should any unforeseen conditions arise during the execution of the project, you will be notified of the issue, provided with an estimate of costs associated with these unforeseen conditions and the project budget will be adjusted accordingly. UW Operations is willing to contribute money to push this project to completion. We will be in touch about specifics. If you have any questions or concerns please contact me. Respectfully,

Based on the number of student, staff, and faculty concerns around mental health, we propose creating a comprehensive Well-Being Center to support our campus community. There is not a one size fits all approach when it comes to addressing individual mental health needs. Several techniques should be considered and implemented. It is an approach to helping community members adopt a new way of learning, gaining the resources needed to address a pivotal situation, and beginning to find solutions. This multi-layered approach will not remedy campus mental health in one year. The essential components of our institution are its employees and students, and we want to make them our number one priority. Addressing mental health will retain happier, healthier employees and students.

12	10	Library Collections Budget Increase	\$2,000,000	\$0	\$1,000,000	Recurring	EBSCO, the primary supplier of journal content for university libraries, reports an 18% increase over the past five-year journal price history (2018-2022). This means that to maintain access to all the content the UW Libraries had in 2018, the collections budget would have to have grown by approximately 18% over the five years. However, from 2018 to 2023, UW's collections purchases have dropped from \$8,973,245 (FY18) to \$8,419,563 (FY23). Although the requested appropriation does not increase the collections budget to cover the full cost of inflation, it does greatly improve the ability to maintain access. Without additional funding the existing budget is concerning as the University of Wyoming strives to become an R1 institution. Increased research support will likely require more library resources, while instead, without baseline budget increases, we will have to make strategic cuts. To our credit, over the past 7 or 8 years, UW Libraries has done everything to stretch the collections dollars we have – but our mitigation efforts appear to be exhausted. There are no more corners to cut, no new partners with which to share costs, nor new opportunities for resource sharing agreements. Increasing costs of materials, eroding collections budgets, and new programming and opportunities embraced by the University, bring us to a reckoning point that requires action.

(\$1.00) of appropriated general funds to not less than one dollar (\$1.00) of matching funds from any nonstate source. This appropriation shall be retained by the state treasurer for distribution in accordance with W.S. 21-16-904 regardless of whether the match is for purposes of a permanent endowment under paragraph (a)(i) of this footnote or for expenditure by the University of Wyoming under paragraph (a)(ii) of this footnote.

11. (a) Of this general fund appropriation, twenty-five million dollars (\$25,000,000.00) is appropriated to match research grants and contracts related to flow through porous media. It is the intent of the legislature that this appropriation not be included in the University of Wyoming's standard budget for the immediately succeeding fiscal biennium. This appropriation shall not be transferred or expended for any other purpose. Of this general fund appropriation, twelve million five hundred thousand dollars (\$12,500,000.00) is effective July 1, 2025, and twelve million five hundred thousand thousand dollars (\$12,500,000.00) is effective April 1, 2026. Expenditure of this appropriation is conditioned upon the University:

(i) Securing a match of funds in the ratio of one dollar (\$1.00) of appropriated general funds to not less than one dollar (\$1.00) of matching funds from any other source;

(ii) Conducting all computational and practical research to the greatest extent reasonably possible with University of Wyoming students within Wyoming;

(iii) Performing research on geologic formations and energy extraction opportunities that may be found within Wyoming;

(iv) To the extent possible, developing any feasibility studies, small-scale experiments or large-scale projects associated with research funded by this appropriation within Wyoming.

12. No funds from this appropriation shall be expended on the office of diversity, equity and inclusion at the University of Wyoming or on any diversity, equity and inclusion program, activity or function.

13. A portion of this general fund appropriation may be expended to conduct the purposes of this footnote. The University of Wyoming shall review opportunities, feasibility and costs associated with expanding medical education and training for Wyoming students, including broader use of WICHE, expanded agreements with WWAMI and new relationships with public universities in the western regional United States. appropriation to each district court may be transferred to one (1) or more other district courts. Authority pursuant to this section includes transfers of associated legislatively authorized full-time or part-time positions and shall be effective for the period beginning July 1, 2024 and ending June 30, 2026. Any transfers pursuant to this section shall be reported annually by the supreme court to the joint appropriations committee. The report shall specify the appropriations and authorized positions transferred including transfers between expenditure series, programs and courts.

(b) Any provision of this act or any other legislation enacted that specifies that an appropriation shall not be transferred or expended for any other purpose, or containing language of like effect, shall prevail over this section and no such funds so appropriated or positions so specified shall be subject to subsection (a) of this section.

[PERSONAL SERVICES TRANSFERS]

### Section 307.

(a) Unless otherwise specifically provided, nonfederal fund appropriations for personal services (100 series) contained in this act shall not be transferred to any other series or expended for any purpose other than personal services. Notwithstanding W.S. 9-2-1005(b)(ii) or any other provision of this act, nonfederal fund appropriations for contractual services (900 series) contained in this act shall not be transferred to the personal services (100 series).

(b) The following appropriations and agencies are exempt from this section:

(i) Section 2, Section 020 of this act to the department of environmental quality;

(ii) Section 2, Section 048 of this act to the department of health;

(iii) Section 2, Section 080 of this act to the department of corrections;

(iv) Any other appropriation in this act that specifies that the appropriation shall not be subject to this section.

(c) The judicial branch is exempt from this section for transfers in a total amount not to exceed four hundred thousand dollars (\$400,000.00).

from the strategic investments and projects account, for major maintenance to the entities and in the amounts specified as provided in this subsection:

(i) One hundred sixty-eight million two hundred seventy-two thousand one hundred fifty-seven dollars (\$168,272,157.00) shall be distributed as follows:

(A) Thirty-six and twenty-four hundredths percent (36.24%) to the state construction department for state facilities managed by the state building commission and state institutions;

(B) Eight and forty-three hundredths percent (8.43%) to fund projects submitted by the department of state parks and cultural resources as approved by the state building commission;

(C) Thirty-six and twenty-one hundredths percent (36.21%) to the University of Wyoming for university facilities, excluding student housing, the student union and auxiliary services areas, the latter being those areas funded by university self-sustaining revenues; \$60.931.348

(D) Nineteen and twelve hundredths percent (19.12%) to the state construction department for community college district facilities.

(b) Notwithstanding W.S. 9-2-1008, 9-2-1012(e) and 9-4-207, appropriations made under subsection (a) of this section shall be separately accounted for by the recipient and shall not revert. Expenditures from these appropriations shall be restricted to expenses incurred for major building and facility repair and replacement as defined in W.S. 9-5-107(h) and as prescribed by rule of the state building commission.

(c) Not later than September 1, 2025, the state construction department shall submit to the state building commission a recommendation for funding for the biennium beginning July 1, 2026, for major building and facility repair and replacement for state institutions, for University of Wyoming facilities and for community college facilities. This recommendation for all facilities shall be based on a formula adopted by the state building commission pursuant to W.S. 9-5-107(g), except that the formula shall incorporate the gross square footage of buildings and facilities for each category of buildings for state facilities, university facilities and community college facilities, not to exceed seven (7) building categories for each entity, excluding student housing, the student union and auxiliary services areas funded exclusively through university or community college generated revenues unless otherwise specified.

(d) Not later than October 31, 2025, the state construction department, the department of state parks and cultural resources, the University of Wyoming and the community college commission shall report to the state building commission and the joint appropriations committee on the expenditures and commitments made from the appropriations under subsection (a) of this section.

[UNIVERSITY OF WYOMING RESEARCH MATCHING FUNDS]

### Section 316.

(a) There is appropriated up to forty million dollars (\$40,000,000.00) from the general fund to the University of Wyoming for purposes of providing matching funds for private or federal funding for all of the following:

(i) Research, services, software and acquisition, development, fabrication, integration, adoption, modification and expansion of technological capabilities, capacities and methods;

SIXTY-SEVENTH LEGISLATURE OF THE STATE OF WYOMING 2024 BUDGET SESSION

(ii) Demonstration or commercial deployment projects related to experimental, computational and digitalization research in the field of porous media technologies at the center of innovation for flow through porous media.

(b) Allocation of the appropriation under subsection (a) of this section shall follow the outlay schedule specified in this subsection. Prior to each allocation, the University of Wyoming board of trustees shall certify that the project is progressing and all parties are successfully meeting the conditions of the partnership agreement specified in paragraph (c)(i) of this section. From funds appropriated in subsection (a) of this section:

(i) Up to thirty million dollars (\$30,000,000.00) may be allocated on or before July 1, 2024;

(ii) Up to an additional twenty million dollars (\$20,000,000.00) may be allocated on or before June 30, 2025;

(iii) The remainder may be allocated on or before June 30, 2026.

(c) Expenditure of this appropriation is conditioned upon all of the following:

(i) A thoroughly developed agreement between the University of Wyoming, as approved by the board of trustees, and any identified partner that clearly outlines the contributions, expectations, timelines and intended outcomes of the partnership;

(ii) The University of Wyoming securing a match of funds in the ratio of one dollar (\$1.00) of appropriated general funds to not less than one dollar (\$1.00) of matching funds or in-kind match from any other source. For the purpose of calculating the matching amount only, the university shall obtain and document evidence of the value of any in-kind match from an independent third-party competent in evaluating the fair value of any proposed match;

(iii) Approval of all matching amounts, contracts and expenditure of matching funds by the director of the center of innovation for flow through porous media, which shall follow the university's signature authority regulation;

(iv) Conducting all computational and practical research to the extent reasonably possible with students and employees of the University of Wyoming within the state of Wyoming;

(v) Developing any feasibility studies, small-scale experiments or large-scale projects associated with research funded by this appropriation within the state of Wyoming to the extent possible;

(vi) Services of major imaging instruments including electron microscopes and x-ray scanners to be made available to students and employees

throughout the University of Wyoming using the center of innovation for flow through porous media's data acquisition project procedures;

(vii) University approval of all terms and conditions of the proposed partnership agreement shall be contingent upon approval of same by the governor;

(viii) The board of trustees of the University of Wyoming establishing a research and facility use policy for the high bay research facility to allow and encourage equipment and facility use by university faculty and graduate students. The resulting equipment and facility use shall be summarized within any budget request submitted under W.S. 9-2-1013 during the period beginning July 1, 2024 and ending June 30, 2026.

(d) Notwithstanding W.S. 9-2-1008, 9-2-1012(e) and 9-4-207, any unexpended, unobligated funds from this appropriation shall not revert until June 30, 2028. This appropriation shall not be transferred or expended for any other purpose. It is the intent of the legislature that this appropriation not be included in the University of Wyoming's standard budget for the immediately succeeding fiscal biennium.

(e) This section is effective immediately.

[REVISIONS TO PRIOR UNIVERSITY OF WYOMING APPROPRIATIONS]

### Section 317.

(a) There is appropriated up to nine million four hundred thousand dollars (\$9,400,000.00) from the general fund to the University of Wyoming to match research grants and contracts related to flameless pressurized oxycombustion technology. Expenditure of this appropriation is conditioned upon a match of funds in the ratio of one dollar (\$1.00) of appropriated general funds to not less than four dollars (\$4.00) of matching funds from the federal government. Upon determination by the University of Wyoming that the funds from this appropriation will not be matched or expended for the purposes of this section, any remaining funds, upon approval of the energy resources council and the governor, may be expended on any project to be constructed in Wyoming under United States department of energy grant identification DE-FOA-0001788. If funds remain after any grant expenditures, remaining funds shall be deposited into an account and available for expenditure by only the Wyoming energy authority subject to approval by the University of Wyoming energy resources council and the governor for purposes of a rare earth pilot processing facility or rare earth element research and demonstrations conditioned upon a match of funds in the ratio of one dollar (\$1.00) of appropriated general funds to not less than one dollar (\$1.00) of matching funds from a nonstate entity.

(b) Except as provided in this section, this appropriation shall not be transferred or expended for any other purpose.

(c) The appropriation in subsection (a) of this section shall be

# SIXTY-SEVENTH LEGISLATURE OF THE STATE OF WYOMING 2024 BUDGET SESSION

reduced by one dollar (\$1.00) for each one dollar (\$1.00) that is not reverted by the Wyoming energy authority from amounts appropriated to the University of Wyoming under 2020 Wyoming Session Laws, Chapter 80, Section 2, Section 067 footnote 7, as amended by 2021 Wyoming Session Laws, Chapter 69, Section 2, Section 067 footnote 7 and transferred to the Wyoming energy authority under B-11 21454 as reported pursuant to W.S. 9-2-1013(b).

(d) Notwithstanding W.S. 9-2-1008, 9-2-1012(e) and 9-4-207, this appropriation shall remain in effect and not lapse or revert except upon further legislative authorization.

(e) This section is effective immediately.

(b) The commission shall review the lists provided under W.S. 21-16-1905(a)(ii) and determine whether there is any duplication of students qualifying for scholarships under this section and from the Wyoming's tomorrow scholarship expenditure account. For any duplication, the commission shall determine whether the student is attending more than one (1) eligible institution. If the student is attending multiple eligible institutions, payment of a scholarship under this section shall be made only to the institution designated as the home institution by the commission. Payments of scholarships to the University of Wyoming shall be made directly to the university. Payments of scholarships to the community colleges shall be made directly to the amount actually due to the institution for any one (1) semester, the excess amount shall be calculated by the university and the commission and deducted from the next payment made under this section.

(c) No student shall receive a scholarship under this section and under the Wyoming's tomorrow scholarship program.

(d) Notwithstanding W.S. 9-2-1008, 9-2-1012(e) and 9-4-207, any unexpended, unobligated funds from this appropriation shall not revert except upon further legislative authorization.

### [ELECTION ADMINISTRATION AND SECURITY]

Section 328. There is appropriated one hundred thousand dollars (\$100,000.00) from the general fund to the state treasurer's office to be distributed to each county clerk in accordance with this section for purposes of obtaining an election consultant or attending training, including professional development training on election administration and security. Distributions shall be made on the effective date of this act in equal amounts with each county clerk receiving three thousand dollars (\$3,000.00). From the remainder of the appropriation available for distribution under this section, each county clerk shall receive an amount in the proportion which the population of the county bears to the total state population. For purposes of this distribution, population shall be determined using the last federal census as defined in W.S. 8-1-102(a)(xv). This appropriation shall not be transferred or expended for any other purpose.

paragraphs (a)(i) through (iv) of this section, respectively. For state executive and judicial branch employees whose compensation is partially funded by general funds, general funds shall be expended for compensation increases in the same proportion as the employee's budgeted salary is paid by state general funds.

(d) In accordance with Section 310 of this act, it is the intent of the legislature that the total appropriation in subsection (a) of this section to each recipient agency be doubled and included as a cumulative total of the sum of the amounts within each of the recipient agencies' standard budget for the immediately succeeding fiscal biennium.

[EXECUTIVE BRANCH POSITION SAVINGS AND FUNDS DEPOSIT]

### Section 330.

(a) Of the unfilled full-time positions for the executive branch authorized in this act and of executive branch vacant positions as of June 30, 2024, the governor shall identify twenty-four (24) full-time positions that, if eliminated or unfilled, would generate not less than two million one hundred eight thousand one hundred twelve dollars (\$2,108,112.00) of annual savings, using the ratio of one (1) full-time position to eighty-seven thousand eight hundred thirty-eight dollars (\$87,838.00) of annual savings.

(b) Not later than October 1, 2024, the governor shall report to the joint appropriations committee on the positions identified in subsection (a) of this section as positions for which associated general funds and other funds will be deposited in accordance with subsection (c) of this section.

(c) Not later than November 1, 2024, all general fund savings identified under this section shall be deposited by the state auditor in the general fund, and all other fund savings generated from this section shall be deposited by the state auditor into the account from which the funds would have been expended for the position.

(d) This section is effective immediately.

[K-12 SCHOOL DISTRICT MENTAL HEALTH SERVICE GRANTS]

### Section 331.

(a) There is appropriated ten million dollars (\$10,000,000.00) from the school foundation program account to the department of education to establish a grant program, based upon a school district's average daily membership (ADM) for school year 2024-2025 and school year 2025-2026, to augment amounts within the education resource block grant model available to districts to address the mental health needs of the K-12 student population as provided in this section.

(b) Each district receiving a grant under this section shall report to the department of education the expenditure of amounts awarded under this
