

INVITATION TO BID #26-294

Request for Qualifications/Proposals – University of Wyoming Water Treatment Services – CEP & WCEP

University of Wyoming Operations, Utilities Management, will receive sealed responses until 10:00am (MDT), March 18, 2026, for the **Request for Qualifications/Proposals – FY27 University of Wyoming Water Treatment Services – Central Energy Plant & West Campus Energy Plant.**

Project Description: The University is requesting proposals for a water treatment service program for the boiler, condensate, cooling water, and chilled water systems at the Central Energy Plant and West Campus Energy Plant. The goal is to maintain a high quality chemical treatment and service program to maintain peak operating efficiencies and optimum corrosion prevention in the steam, condensate, cooling, and chilled water systems with safe application systems and environmentally-friendly products. The Vendor is to provide all chemicals, training, analytical support and consultation, equipment and testing, and supplies in accordance with the specifications.

An Optional Pre-Bid walk through will be conducted March 3, 2026, 10:00am (MST), Service Building Conference Room 130, 452 N 15th Street, University of Wyoming, Laramie, WY.

Solicitation information is available via Public Purchase, www.publicpurchase.com.

Only responses submitted electronically through the Public Purchase site will be considered.
