what is ASSISTIVE TECHNOLOGY?

Do you know someone who needs help reading, hearing, writing, or learning? Wyoming Assistive Technology Resources (WATR) has solutions.

WHAT IS WATR?

Wyoming Assistive Technology Resources is Wyoming's official Assistive Technology Act program and a resource for all Wyoming residents. WATR's mission is to provide evidence-based information about assistive technology resources and services to maximize participation in life activities.

WHAT IS ASSISTIVE TECHNOLOGY?

Assistive technology (AT) is a device or solution that enhances an individual's ability to live, play, or work independently. AT can be a device, tool, or adaptation that supports a person when participating in everyday activities and settings. With this assistance, local library resources become more accessible to users who previously may have had only limited access.

WHAT'S INSIDE THE AT TOOLKIT?

WATR BOOKMARK MAGNIFIERS

A tool that enlarges objects for reading and general viewing

WATR JAR OPENER GRIPS

Textured rubber grips that assist in opening jar lids

PENCIL GRIPS

An aid that gently positions fingers in the proper, ergonomic position for writing

COLOR OVERLAY BOOKMARKS

Special bookmarks that reduce glare when used on top of reading materials

LETTER WRITING GUIDE

A guide placed over standard paper that assists a person with low vision to write neatly in straight, horizontal lines

MASKING AIDS

Tools that isolate words and help readers to focus on segments of material

LARGE PRINT STICKERS FOR KEYBOARDS

Large, individual letters applied to a standard keyboard, so keys are easier to see

PICTURE COMMUNICATION BOOK

A paper-based system where an individual points to words, letters, or pictures to communicate
