What is the Wyoming Technology Access Program (WYTAP)?

Wyoming Assistive Technology Resources (WATR) and Wyoming Independent Living (WIL), in partnership with StagePoint Federal Credit Union of Laramie, are proud to offer a program designed to help individuals with disabilities access financing for assistive technology devices and services. This collaborative initiative provides an affordable and supportive pathway for people with disabilities to obtain the tools they need to enhance independence, mobility, and daily living.

WYTAP buys down the interest on the loan; thus the borrower pays very low interest. The program is the first of its kind in the state of Wyoming.

Free loan counseling and assistance are available during the application and throughout the life of the loan.
