#### Wallop Civic Engagement Professional Development Workshop

To better understand the challenges Wyoming educators face, WDE's Wyoming Teacher Retention and Recruitment Task Force has partnered with OMNI Institute to develop and administer a teacher climate survey. The survey is completely anonymous and voluntary. This survey will help the task force learn about educator experiences, and the current climate of the workplace, while providing the task force with real-time information about the challenges facing Wyoming educators. The results will help identify actionable

strategies at the state and local levels to better meet the needs of Wyoming's teachers.
