

What is ECHO?

Project ECHO is a model for lifelong medical learning and collaborative practice that links front-line healthcare providers with specialist care teams to manage patients who have chronic conditions requiring complex care. It is transforming the way medical knowledge is shared and translated into everyday practice – and, in the process, enabling thousands of people in remote and medically underserved communities to get care they couldn't easily get before, if at all.

Through the UW ECHO® in Geriatrics sponsored by the Wyoming Center on Aging in partnership with Project ECHO; healthcare professionals throughout the state will have the opportunity to receive best-practice recommendations for consideration in management of their geriatric patients by presenting their challenging cases for discussion and feedback to a network of colleagues in the state as well as a specialist care team. Each ECHO network will also feature a brief didactic on a variety of important topics related to geriatric care.

UW ECHO® in Geriatrics Network Curriculum

~ Thursdays 12:00pm - 1:15pm ~

A bi-weekly case-conference plus
educational presentation

General Information:

Goals/Objectives:

- Support a network of geriatric care practitioners
- Create hubs of geriatric expertise in Wyoming
- Provide support to providers who care for geriatric patients.

Who is eligible to participate in the UW ECHO® in Geriatrics Network?

Any provider or organization (including physicians, NPs, PAs, nurses, medical assistants, pharmacists, social workers, case managers, mental health staff, OT/PT/SLP, etc.) with an interest in geriatric care. Participation is free.

Continuing education details:

Continuing education will be available for interdisciplinary healthcare providers including, pharmacy, nursing, social work, psychology, and other healthcare professionals and social service providers.

Requirements for participation:

- A one-time registration is required. Please call (307) 766-2829 or email wycoa@uwyo.edu to join!
- 1 case presentation from each site for the 2017 year
- A venue or room for participants at your site which has a PC with a webcam, iPad, or iPhone connected to the internet.
- A designee who is responsible for working with WyCOA on network details.
- All participants are asked to complete an evaluation for each session.

Upon registration, each site will receive the information to log-on to each session.

For more information:
