

Tech2Connect is brought to you in partnership with the University of Wyoming Center on Aging, the Wyoming Assistive Technology Resources and Wyoming Department of Health. This is a resource for older adults and adults with disabilities in Wyoming to be provided with technology assistance to combat social isolation and facilitate remote social services and remote healthcare. All of these resources can be found at www.uwyo.edu/wycoa

Technology Decision Guide

This guide will ask questions about technology wants and needs then generate an outcome report with suggestions for devices or training videos based on your responses. If you have complex needs for technology training or assistive technology, please contact Wyoming Assistive Technology Resources (WATR) for further evaluation, device suggestions, loans, and assistance. Please see contact information below.

Educational Videos

Educational videos will provide you information on:

- Basic Device Use: turning your device on and off, changing the volume and navigating other device features.
- Built-in Accessibility: finding out about features that your device has to help you use it easily.
- Safety and Privacy: using the internet while keeping your information private.
- Telehealth: learning how to talk with your healthcare provider from the comfort and safety of your home.
- Video Chats: learning how to talk with friends and family on your device.
- Social Apps: learning all about Facebook, Twitter or Instagram to keep up with friends and family.
