

PARKINSONS WEBINARS

YOUR CARE TEAM AND THE SUPPORT SYSTEM

APRIL 18TH & 19TH, 2025 ONLINE

Speaker: Guillaume Lamotte, MD, MSc

Dr. Lamotte has a broad background in medicine and neurology with specialty training and expertise in movement disorders and autonomic disorders. He is pursuing an academic career focused on clinical research in the fields of autonomic and movement disorders and is currently an assistant professor in neurology at the University of Utah, Salt Lake City, UT, where he sees patients with movement disorders and autonomic disorders.

FOR THE HEALTHCARE PROFESSIONAL: APRIL 18TH, 12NOON-1PM MT

Objectives: Understand symptom progression and how these symptoms justify expansion of the care team. Learn about the impact and benefit of palliative care on your own scope of practice. FREE 1.0 CE Hour Education offered!

FOR YOU AND THE CARE PARTNER: APRIL 19TH, 12NOON-1PM MT

Objectives: Learn when it is appropriate to expand the Parkinson's care team. Understand the importance of building a support system for emotional wellness and long-term independence, with an emphasis on Palliative care.

THERE IS NO CHARGE FOR THESE EVENTS BUT REGISTRATION IS REQUIRED.

Once registered you will receive info to participate to your email.
