February 8th, 2017

Volunteer to be a Change Champion!

Email <u>wyocloud@uwyo.edu</u> to volunteer to be a Change Champion!

Deadline: Wednesday, February 15th

Change Champions will have a **more involved and direct role with the WyoCloud team** to encourage and drive change on campus. This group will champion outreach and be the voice of this project.

Engage in Department Roadshow Campaign

Participate in focus groups to address resistance

Be the first to test the new system and training

Be a positive (and creative) advocate for WyoCloud

Thank you Aira Saukatis!

Department Roadshow Campaign will begin in March

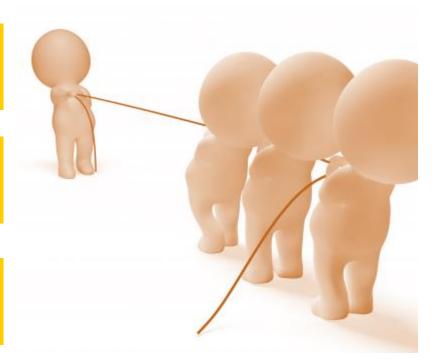

Members of the project team and Change Champions will present information about WyoCloud across campus to create awareness and address resistance

We want you to feel prepared and confident to share information on the WyoCloud changes and address resistance. More information to come on opportunities for you to learn from UW faculty about how to deal with change.

Student Reporting Go-Live

Student Reporting Update

Complete User Acceptance **Testing** February 15th **Online Training Opens** March 6th

Student Reporting Go-Live

March 6th

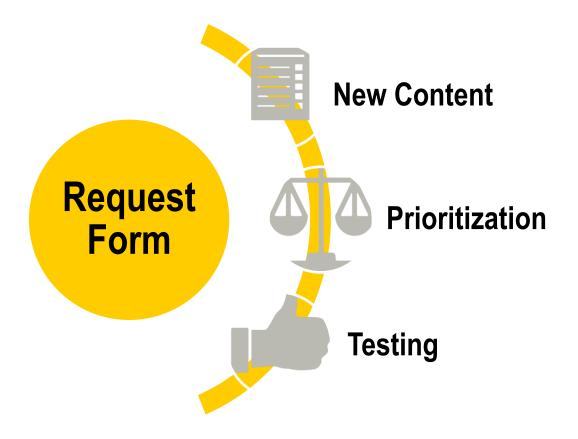

Required for System Access

- Training is required to gain access to the Student Reporting WyoCloud system
- 30 minute self-paced online training to learn basic navigation
- Training through WyoCourses will be released on March 6th with a communication sent the week prior to all users with Banner access
- Email will be sent with your system access details after online training is complete

After the Student Reporting go-live in March, the reporting team will need UW's collaboration to implement a phased rollout of additional reporting content.

Meet the Experts

Potential Faculty Delegation Option for Expense Reports

 Through conversations with business managers participating in CR2 testing, the WyoCloud team is now exploring the option for faculty to delegate the process of filling out an expense report to department accountants

Procurement Card Processing through the Expense Module

- The project team is considering using the Expense module for Pcard processing, which would flow through the module just like other expenses
- Cardholder would deal with reconciliation in that case

Procurement, Expense, and Accounts Payable Approval Workflow for Requisitions

- The project team is currently discussing and working through how to alter the delivered workflow to include the ability for department accountants to change/correct requisitions
 - Based on business manager feedback in CR2

Approval Workflow based on Dollar Amount

- Approvals would be configured to route to certain additional approvers based on dollar amounts:
 - Up to 100k \rightarrow Business Managers
 - 100 250k \rightarrow Deans and AVP
 - 250k 1 million \rightarrow VP
 - Greater than 1 million \rightarrow President

Procurement

Strategic Sourcing

- Purchasing portal through WyoCloud to purchase computers and laptops, scientific supplies, and office supplies by submitting a requisition.
- UW currently has an RFP for office supplies out for solicitation
- All items sold through the purchasing portal will be the preferred vendor for the University
 - Less time spent searching for products online and comparing prices
 - Aligns with the University goal to better manage and use resources—vendor products will be at the best negotiated price
 - Faster requisition (PO) processing since contracts will already be negotiated and agreed upon

Wyo Cloud Project P Wyo Cloud Projects)

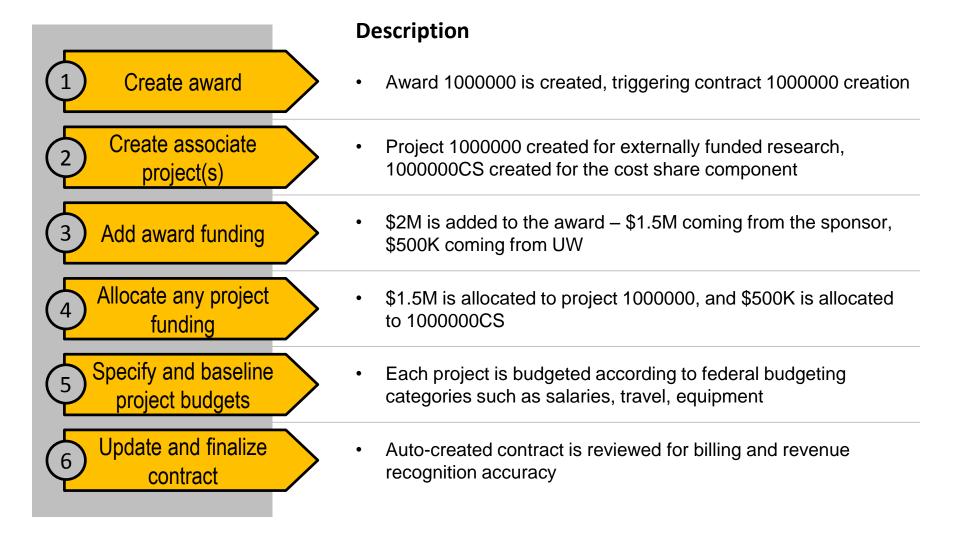

Project Portfolio Management (Grants and Capital Projects)

- Projects are going to be the where expenditures are recorded and tracked against based on POET information
 - Project, Organization, Expenditure Type, Task
- Multiple projects can roll up to a single award
- Cost share is going to be captured in a separate, internally funded, cost share project
- Projects will have unique funding allocations, budgets, and project-owning orgs (which may be different that the primary grant-owning org)
- Projects are also where reporting information such as **funding source**, and information about **federal direct vs**. **passthrough**, resides

Will there be a distinction between section I and section II funds?

How will we report to the state if there is no delineation between section I and section II money?

Will there still be a biennium?

Will we revert funds back to the state?

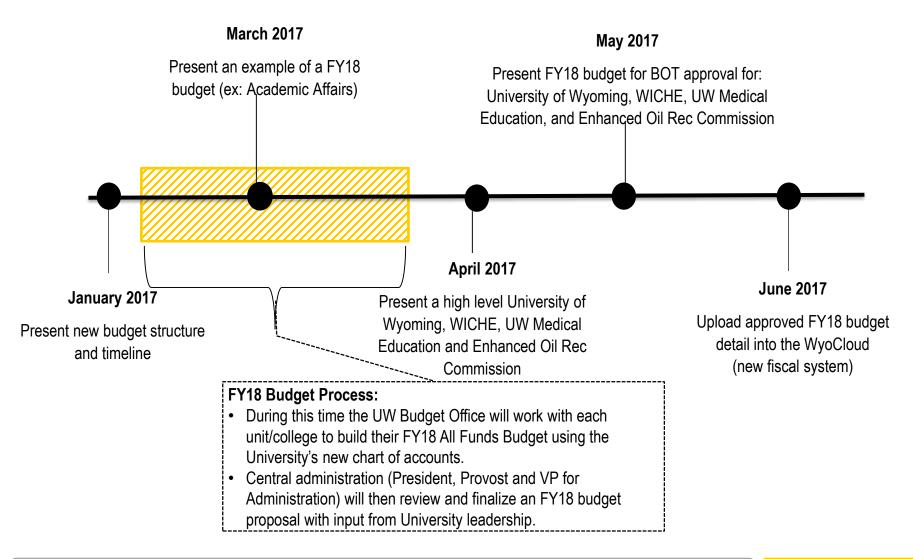

How will funds roll forward?

How will we know what the policies and restrictions are going forward (i.e., budget transfers, B1000s, B2000s, etc.)?

Finalized expense and revenue values will be sent out soon!

- View funds through the revenue and expense budget by entering funds in the revenue and expense chart fields
- Expense accounts will have less detail
 - Drill through the General Ledger to see details in the subledger.
