The Eight Step Change Process

The Reality: The Valley (Pit) of Despair

Understanding Change

Want someone to accept change?

First understand why someone may resist

Change is an emotional experience

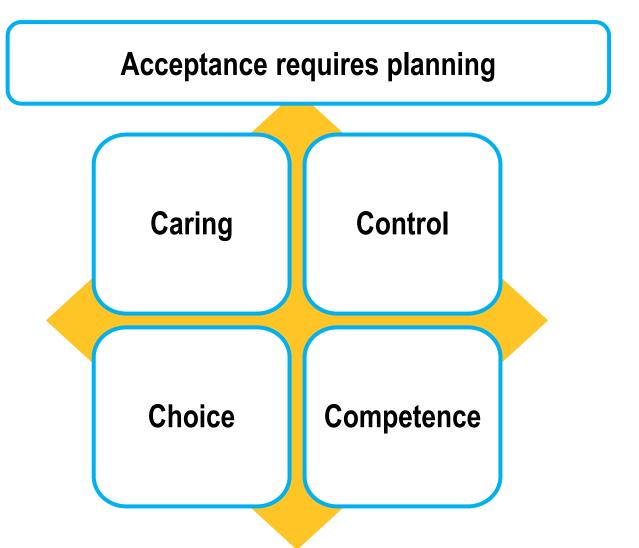

Change <u>always</u> means loss

- Safety & Security
- Competence

- Relationships
- Mission & Purpose

Understanding Change

Understanding Change

Factors that increase resistance

- Important expectations about the future won't be met
- Management is not trusted
- People don't understand the reason for change
- There is a long period of uncertainty about what is going to happen
- Change is going to impact me more than others
- Many changes are happening at the same time
- Change has been ongoing, with little let-up

So What Does it Mean for Me?

Understand the negative responses to change

Be prepared for your own emotions

Find ways to care for yourself and embrace opportunities that might present themselves

Speak up when you identify issues

Let's Talk

Ideas?

Questions?

Comments?

Concerns?

Remember, we're not the first group to experience this type of change, and we won't be the last!

WyoCloud Security Approach

With WyoCloud, UW is transitioning to a more open and transparent security approach. This approach helps to bring more consistency across our business practices.

Giving the departments and colleges the latitude to determine how best to divide job duties within their organization

Providing more flexibility to allow for cross training

Facilitating an easier transition when someone transfers or a department is restructured

WyoCloud Security Approach

Training will be required for WyoCloud due to the open security approach. All Employees will have access to submit expense reports and make purchases.

Fiscal Responsibilities

Users across campus who have fiscal responsibilities will be given the same elevated privileges with additional training

Expense Reports and Requisitions

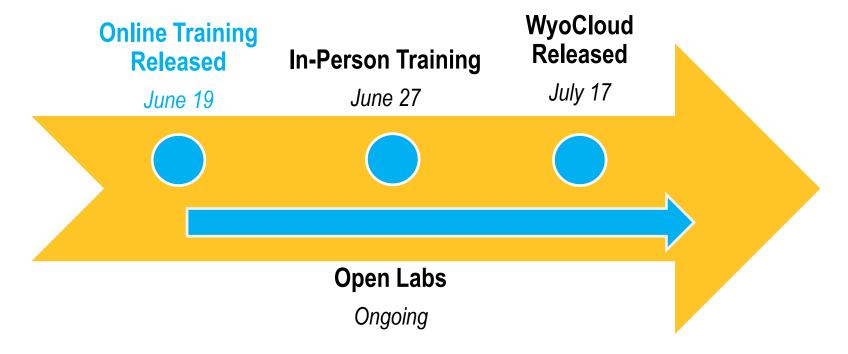

All UW employees will be required to complete training on Basic Navigation and Expense Reports. Creating Requisitions is optional but encouraged.

Training: Preparing for WyoCloud

WyoCloud is following a Just-in-Time training approach.

Just-in-Time means users will be trained close to the release of the replacement system on July 17.

Online Training Courses

Online Training will be offered for the following topics by role. Only the Basic Navigation and Entering an Expense Report courses will be required for system access for all users.

June 19 – 26

Required for All

- Basic Navigation
- Entering an Expense Report

Recommended for All

Creating a Requisition

Dependent on Role

- Modifying a Requisition
- Managing Expense Report
- Approvals
- Entering EncumbrancesManual
- Journals
- Processing PO Invoices
- Managing Requisition Approvals
- Self Service and Reporting

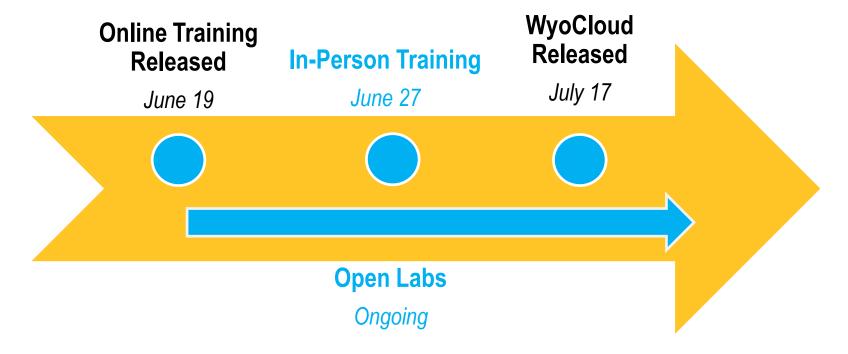

- Creating Spreadsheets for Journal Entries
- Cash Advance
- Receiving Goods/Services
- Managing Supplier Returns
- Creating a Supplier Agreement
- Creating an Agreement Contract
- Processing Non-PO Invoices

Training: Preparing for WyoCloud

WyoCloud is following a Just-in-Time training approach.

Just-in-Time means users will be trained close to the release of the replacement system on July 17.

Preparing for Training

The WyoCloud team knows that campus wants to see the system and learn how to use WyoCloud as soon as possible. Before training, there are many events for you to become familiar with the system.

Deep Dive Sessions

May - June

WyoCloud Expo

Upcoming Communications

With the WyoCloud training and system being released over summer when many faculty and staff are away from campus or on vacation, we are working on communications to keep everyone included and informed.

Email of instructions to go out before close of semester and faculty focus group formed

June

Online Training accessible and targeted fiscal year cutoff communications

July

On-going communications about WyoCloud release and quick reference guides available

August

Optional In-Person Training and Open Labs for returning faculty

Upcoming Events

If you want to continue to prepare yourself for WyoCloud, we have opportunities for you to learn more leading up to WyoCloud's release.
