

WYOCLOUD BUSINESS INTELLIGENCE

Greetings,

The WyoCloud team was made aware that the Budgetary Control Dashboard within [Business Intelligence](#) does not contain all transaction level data within the actuals displaying in this dashboard. Specifically, certain transactions containing program and activity codes are not consistently displaying. As we are working to identify exactly which codes are not appearing, the Budgetary Control Dashboard will not be available for use as we want to ensure the data is accurate.

In the interim, it is recommended you use the [Account Analysis Report](#) to see your unit's actual expenditures. A unit's budget can be found in WyoCloud Planning and Budgeting. If you do not have access to WyoCloud Planning and Budgeting, please work with your colleague in your unit who does have access. A list of licensed users can be found on the [Budget Office website](#).

Thank you for your patience as we address this issue.

Best,
The WyoCloud Team
