

STRATEGIC SOURCING

Through WyoCloud, the University of Wyoming has embarked on a strategic sourcing initiative to leverage the spending power of the University. By working with competitive suppliers, UW will get the best prices and realize savings as an institution on computers, office supplies, scientific supplies.

You no longer need to walk to your departmental accountant's office to ask for office supplies to be ordered. Instead, you can place orders for computers and laptops, scientific supplies, and office supplies yourself with a requisition through the WyoCloud Procurement module. All items purchased through the purchasing portal will be from preferred vendors for the University. There are many benefits to ordering goods through WyoCloud Procurement:

- Spend less time searching for products online and comparing prices.
- Aligns with the University goal to better manage and use resources since supplier products will be at the best negotiated price.
- Faster requisition (PO) processing since contracts will already be negotiated and agreed upon.

For more information on Strategic Sourcing and WyoCloud, you can:
