

## WYOCLOUD SERVER ERROR AND PURCHASE REQUISITION CORRECTION

Greetings,

### **WyoCloud Server Error**

Select WyoCloud users across campus are receiving connection errors when they are in the WyoCloud Financial Management and HCM System. A service request (SR) has been placed with Oracle and when this issue is resolved, users will be notified. Users should still be able to perform functions within the system but may continue to receive the error until Oracle has resolved the issue.

### **Correction - Purchase Requisition Communication**

Per the communication sent earlier this morning, please note the following change on the useful life: *The University defines capital equipment assets as any individual item which has a per-unit acquisition or fabrication/construction cost of \$5,000 or more, is movable (not permanently affixed to a building), and has a useful life of at least **one (1) year**.*

Best,

The WyoCloud Team
