Greetings,

Please see below updates and reminders:

Quarterly System Update

WyoCloud Financial Management & HCM will be down for a quarterly system update beginning Friday, November 15 at 5:00 p.m. through Monday, November 18 at 8:00 a.m. During this time the system will be unavailable.

Please be sure to log out of the system by 5:00 p.m. on Friday, November 15.

The maintenance and update schedule can be found here. It is recommended users add these dates to their calendar.

System Changes Coming with the Update

After the system update this weekend, users will notice a few updated features in the system. These updates were shared during the deep dive session yesterday and can be viewed on the WyoCast recording available here. All changes will be reflected in the Quick Reference Guides on Monday.

Here are a couple highlights of new features that will be available Monday:
- System wide search option from the WyoCloud homepage.
- Updates to Absence Balances page including the option to view absence accrual details.

WyoCloud No Longer Supported Using Microsoft Internet Explorer Browser

Since the release of Microsoft's Edge browser in 2015, Internet Explorer has not added support for many modern web standards nor received major updates. Because of this WyoCloud may not function properly when using Internet Explorer and Oracle is discontinuing support using this browser. It is highly recommended users use a browser other than Internet Explorer when accessing WyoCloud. Mozilla Firefox is the preferred web browser for WyoCloud with Google Chrome as an alternate.

Best,

WyoCloud Team
