

# WYOMING STATE VET LAB FEATURED STUDENT OF THE MONTH

AUGUST 2023

MACKENZIE REIGEL

## VIROLOGY & CELL CULTURE

18 months

---

### Hometown:

Leadville, CO

---

### Major:

Mechanical Engineering  
and a Certificate in  
American Sign Language

---

### Expected Graduation:

May 2026

### What do you like about working here?

I enjoy working here because it gives me experience in a lab that I can transfer over to my field of study. I'm constantly learning new things and expanding my horizons. I also really enjoy the people I work with.

### What are your hobbies or something we don't know about you?

Most of my hobbies revolve around being outside. I love to ski, snowboard, dirt bike, and hunt.

### What are your future plans?

Currently, my future plans are to finish my studies at the University of Wyoming while hopefully taking one semester to study abroad. After that, I'm hoping to gain an internship or job opportunity in the engineering field and possibly return to school to study biomedical engineering.
