

# ***WYOMING STATE VET LAB FEATURED STUDENT OF THE MONTH***

**RYLEE HUDSON  
FEBRUARY 2025**

## **DIAGNOSTIC SEROLOGY**

**Worked here for:** 5 months

### **Hometown:**

Gillette, WY

### **Major:**

Animal and Veterinary  
Sciences

### **Expected Graduation:**

May 2027

## **What do you like about working here?**

During junior high and high school I helped my parents collect and send in many samples to WSVL for tests; some of which I now have learned about and can do. It's neat getting to see the work that's done behind the test results that I saw growing up. I also have really enjoyed getting to know the helpful and intelligent gals I get to work with.

## **What are your hobbies or something we don't know about you?**

I love hiking in the Bighorn mountains, water coloring, and reading.

## **What are your future plans?**

After undergraduate school I hope to attend Veterinary school to pursue to career in food animal veterinary medicine. Eventually, I'd love to specialize in cattle reproduction and/or nutrition. I want to return to practice in Wyoming!
