REGULATORY SEROLOGY

10 months

Hometown:

Pierre, SD

Major:

Pre-Vet and Zoology

Expected Graduation:

May 2024

What do you like about working here?

What I like about working here: I really enjoy working with all of my co workers. We have a great team atmosphere and work together really well. I also feel like I learn something new everyday.

What are your hobbies or something we don't know about you?

I went skiing for the first time this year and I will probably start doing that more often because it's so fun!

What are your future plans?

I'm not totally sure yet, I am hoping to go to vet school or maybe go into conservation.
