What do you like about working at the lab?

I have had the opportunity to see aspects of veterinary medicine that I wouldn't experience in a clinical setting. Seeing a combination of wildlife, companion animal, and livestock cases is an experience I would not get anywhere else!

Hobbies/something we don't know:

I absolutely love movie musicals/cult films, Mama Mia and The Rocky Horror Picture Show are two of my favorites!

Future Plans:

I plan to go on to veterinary school and practice food animal medicine!
