

Hometown:

Romeo, CO

Major:

Microbiology

Expected

Graduation Date:

Fall 2020

Worked at the lab
for 4 months

Works in:

Bacteriology,
Cell Culture,
Clinical Pathology

WSVL Featured Student of the Month September 2019

Leslie Sims

What do you like about working at the lab?

I have worked in the human health side of things as a phlebotomist for 13 years. I am really enjoying the hands on learning experience of animal health. There are great people here to work with that are really patient with all of my questions.

Hobbies/something we don't know:

My husband and 3 children and I have goal of going to and camping in all National Parks. We did 3 this year.

Future Plans:

Working in a lab. I love the science behind it all. And keep learning.
