ABOUT

The American Concrete Institute is a leading global authority for the development, dissemination, and adoption of its consensus-based standards, technical resources, and educational, training, and certification programs.

WORKSHOP DESCRIPTION

- ◆ Refresher classes are either 2 or 3 days depending on which course you are taking. Make sure to check our website for further information regarding scheduling
- ◆ All sessions are conducted **on site** in Cheyenne
- ◆ Lunch is provided on days that run 8am to 5pm.
- ◆ Retest dates are available for those who don't pass one or both parts of the test.

WHO SHOULD ATTEND

Many local, state, national, and international building codes, specifications, and agencies require ACI-certified personnel on the jobsite. People requiring the qualifications for conduction or overseeing concrete materials testing are encouraged to apply.

2025 ACI Certification
